

# INSTALLATION

**STEP 1:** Unpackage your Zirkona Outdoors mount and inspect.

**STEP 2:** Find your desired location and prep the area for installation.

\*Depending on the type of BASE PLATE provided on the mount assembly, you may be required to drill to fasten the BASE PLATE to your vehicle.

**STEP 3:** Once the mount is installed, fasten your device to the DEVICE PLATE. Some device plates such as the SPINE CLIP or the UNIVERSAL PHONE CHARGING CRADLE require no fasteners.

**STEP 4:** After your device is securely fastened to the DEVICE PLATE, loosen the handle on the JOINER, which will release the lock and let you position the mount and device to the optimal position.

**NOTE:** There will be some resistance when moving the ball ends of the joiner. This is normal and will aid adjustments by supporting some load while positioning.

**STEP 5** Inspect your installation, admire your craftsmanship, and enjoy the premium experience Zirkona Outdoors will provide.

**STEP 6:** You are ready to enjoy the Zirkona Outdoors difference!

**Device Plate:** Available in several mounting patterns and designs for unique device compatibility. The device plate securely holds your lightweight device in place to the complete Zirkona solution.

**COMPONENTS**

**Joiner:** Our unique encapsulated joiner allows users to rotate their small, lightweight devices easily and effortlessly. Available in two styles (traditional and two-down) and three different sizes to give users increased flexibility for various payloads.

**Base Plate:** Our wide variety of base plates gives your Zirkona solution the structural integrity it needs to withstand even the most extreme situations.

**ORIGINS**

Zirkona originates from the Swedish countryside and is genuinely designed for its rugged landscape. This lightweight mounting solution's precision manufacturing and rugged nature deliver a premium mounting solution for GPS, tablets, phones, action cameras, and many other small devices.

As technology developed and personal computers and tablets became increasingly popular through the 90s and '00s, Zirkona established itself as a "go-to" mounting solution in Europe, enticing Gamber-Johnson's interest.

In 2017, Zirkona AB joined Gamber-Johnson through acquisition to bring this premium mounting solution to a global marketplace. Zirkona's flagship product, the Joiner, has since been incorporated into many of Gamber-Johnson's products and accessories.

The demand for a consumer-driven version has finally surfaced, reaching over 40 countries and supplying solutions to various public and private industries. Zirkona Outdoors is the perfect solution for your recreational device when you desire quality mounting solutions trusted by professionals.

Partnering with Mossy Oak, Zirkona Outdoors offers some of the most popular camouflage patterns available alongside our trusted black anodized offerings.
