

CERTIFIED INSTALLER PROGRAM

The Certified Installer program assures our customers that their Gamber-Johnson mounting system is not only well-designed and manufactured to quality standards, but that it also is installed correctly, professionally and safely.

Members of the Certified Installer network represent a commitment to continual improvement in product knowledge, job skills, customer service and quality of workmanship. In turn, Gamber-Johnson maintains this network through on-going technical and customer support.

BENEFITS

Becoming a member of the Gamber-Johnson Certified Installer network benefits your company in several ways:

CERTIFICATION It associates your installation work with the reputation and quality that Gamber-Johnson represents.

BID SPECIFICATIONS It enables you to leverage the "Gamber-Johnson Certified Installer" designation in writing bid specifications.

TRAINING It ensures that your installation team will be knowledgeable on the best installation practices and the proper mounting product for each application.

MARKETING It allows your company to be listed as a Certified Installer on the Gamber-Johnson web site. In addition, your company can promote the Certified Installer designation by using the logo on your marketing materials.

HOW TO BECOME A CERTIFIED INSTALLER

ELIGIBILITY

1. Gamber-Johnson resellers who have been approved for certification by Gamber-Johnson.
2. Independent installation companies who only provide installation services who have been sponsored by a Gamber-Johnson reseller.

REQUIREMENTS

A 1-2 day training session at your facility for the entire Installation team is required.

Topics include:

- Proper mounting system / hardware selection
- Best wiring practices
- Air Bag Safety
- Customer service skills
- Product / Installation warranty
- Customer feedback cards / Audits

COST

In most cases, Gamber-Johnson will conduct the training at no cost.
