

Forklift Low Profile Tablet Keyboard Bracket

Item #7160-0984

This keyboard bracket features a 3" arm and mini clevis to give you the flexibility to rotate and tilt your keyboard to any desired position. You can also mount a tablet docking station or cradle using the following hole patterns: AMPS, NEC, 75mm VESA, and Gamber 2x4. Its low profile design means you can save more space and maximize your mobile workplace.

Weight

6.8 lbs. / 3.08 kg

Dimensions

H: 14.56" / 37.0 cm

W: 6.24" / 15.8 cm

D: 9.35" / 23.7 cm

Features

- Heavy gauge steel construction for long-term durability in a rugged environment.
- Black powdercoat finish for maximum corrosion resistance.
- Rotating 3" arm and Mini Clevis provides independent keyboard adjustability.
- Designed to be used with any keyboard using the AMPS and NEC hole pattern.
- Bracket features the following hole patterns for dock/cradle mounting: AMPS, NEC, 75mm VESA, Gamber-Johnson 2" X 4.09".
