**Product**

7160-0984: LOW PROFILE TABLET KEYBOARD BRACKET

**Revision**

REV. B

**Form**

INST-792

Printing Spec: PS-001

This instruction sheet covers the installation of the Gamber-Johnson low profile tablet keyboard bracket (7160-0984). This bracket is intended to mount a dock/cradle and keyboard to various Gamber-Johnson motion attachments.

Utilizing the given hardware components and the diagrams below secure the Low Profile Tablet Keyboard Bracket (7160-0984) to a compatible Gamber-Johnson motion attachment.

Attach the keyboard to the keyboard clevis using one of the various mounting hole patterns on the clevis.

Attach your dock or cradle to the low profile bracket using one of the mounting hole patterns provided in the bracket.

Use adjustment levers to accommodate desired position of your Dock/Cradle and Keyboard.

**Product Mounting Disclaimer**

Gamber-Johnson is not liable under any theory of contract or tort law for any loss, damage, personal injury, special, incidental or consequential damages for personal injury or other damage of any nature arising directly or indirectly as a result of the improper installation or use of its products in vehicle or any other application. In order to safely install and use Gamber-Johnson products full consideration of vehicle occupants, vehicle systems (i.e., the location of fuel lines, brakes lines, electrical, drive train or other systems), air-bags and other safety equipment is required. Gamber-Johnson specifically disclaims any responsibility for the improper use or installation of its products not consistent with the original vehicle manufactures specifications and recommendations, Gamber-Johnson product instruction sheets, or workmanship standards as endorsed through the Gamber-Johnson Certified Installer Program.
