

ZEBRA TC5X AND TC7X HANDHELD COMPUTER CRADLES

Small form factor with immense potential.

The Zebra TC5x and Zebra TC7x handheld computer cradles offer rugged options to withstand the demands of today's mobile work environments. This product line offers simple and easy to use versions of non-powered and powered cradles. Combine a Gamber-Johnson mounting solution with a Zebra TC5x or Zebra TC7x cradle to create the best solution for any safe and efficient mobile work environment.
