

# ZIRKONA SCREW CLAMP

Designed for your work environment. A light-weight solution for your device.

Quickly attach your device mounting solution with the help of Zirkona's new screw clamp. The jaws of the screw clamp work around tubular surfaces ranging from 7/8" (22.23mm) to 1-3/4" (44.45mm), supporting a wide range of poles. An optional hardware enables the clamp to tighten firmly on flat surfaces up to 1-3/16" (30.16mm) further increasing the applications for the clamp.

WEIGHT	HEIGHT	WIDTH	DEPTH
0.45 lbs / 0.2 kg	3.86 in / 9.84 cm	2 in / 5.08 cm	2.63 in / 6.67 cm

## FEATURES

- Wide jaws clamp around handlebars and other various poles with ease
- All-aluminum jaws reduces the chance of breakage
- Great solution for temporary applications
- Rubber insert to help grip on smooth surfaces for improved stability
- 1/2" hex head handle gives the ability to further tighten the clamp with a wrench in some applications
- Optional hardware bag to adapter to flat surfaces up to 1-3/16" (30.16 mm) thick (7120-1013)
- Stainless hardware to help protect against the elements, indoor and outdoor
