ADJUSTABLE OVERHEAD GUARD BAR MOUNT

Revision

Rev A

Form

INST-1035

Printing Spec: PS-001

This instruction sheet is for the Gamber-Johnson adjustable overhead guard bar mount. It is designed to attach to any overhead guard bar, straight or angled.

Attaching the mount:

1. Attach the mount to the front overhead guard cross bar by placing the back plate on the top side of the cross bar (between 2 of the vertical grate bars that run front to back) and bolting it in place with (2) of the 3/8" dia. carriage bolts supplied in hardware bag 7120-0864.

Note: There are 3 different lengths of carriage bolts in the hardware bag. Use the set of bolts that best fits your application.

2. Position the vertical mounting bracket so it hangs straight downward and tighten the (4) 3/8" dia. angle adjustment bolts in place.

3. Adjust the vertical height of the mount to the desired location and tighten the (4) 3/8" dia. vertical adjustment bolts in place.

4. Attach the computer or dock to the clevis motion attachment.

Product Mounting Disclaimer

Gamber-Johnson is not liable under any theory of contract or tort law for any loss, damage, personal injury, special, incidental or consequential damages for personal injury or other damage of any nature arising directly or indirectly as a result of the improper installation or use of its products in vehicle or any other application. In order to safely install and use Gamber-Johnson products full consideration of vehicle occupants, vehicle systems (i.e., the location of fuel lines, brake lines, electrical, drive train or other systems), air-bags and other safety equipment is required. Gamber-Johnson specifically disclaims any responsibility for the improper use or installation of its products not consistent with original vehicle manufacturers specifications and recommendations, Gamber-Johnson product instruction sheets, or workmanship standards as endorsed through the Gamber-Johnson Certified Installer Program.
