LARGE SUCTION CUP VESA MOUNT

Designed for your work environment. A versatile, light-weight solution for your tablet or device.

Zirkona's large suction cup mount with medium two-down joiner and VESA 75mm plate is a great solution for temporary applications. The mount can suction to any flat and non porous surface with ease with the help of lever. Utilizing the VESA 75mm plate, mount any tablet cradle to ensure your device is mounted to your desired viewing position. With the great holding power and flexibility of the joiner, the Zirkona suction cup mount is a great choice for your tablet to keep things moving.

PART NUMBER		DESCRIPTION		
7160-2115		Zirkona Assembly: Large Suction CupMount with Medium Two-Down Joiner and VESA Plate *Cradle Purchased Separately		
WEIGHT	HEIGHT	WIDTH	DEPTH	
1.50 lbs. / 0.68 kg	5.13 in / 13.03 cm	6.14 in / 15.60 cm	4.53 in / 11.51 cm	

FEATURES

- Large 4.5" (11.43 cm) suction cup mounts to flat nonporous surfaces with simple lever
- Suction cup material has a tacky surface to help stick the mount before using the lever to clamp down
- Medium 2-down joiner allows for smooth adjustment for better positioning
- Inside the joiner, the friction brake helps make adjustments easier by helping holding the device
- Ratcheting handle to move the handle out of the way when not in use
- VESA plate works seamlessly with our joiner system and device to mount any VESA compatible dock you need
- Glued assembly ensures the mount is solid when mounted
- The suction cup design works great as a temporary solution to take from vehicle to vehicle
