# POWER ADAPTER - PANASONIC 120W - AUTO ADAPTER

## Dependable Power for Your Panasonic Toughbook in Any Mobile Environment

Keep your Panasonic Toughbook powered and operational wherever the job takes you. The Gamber-Johnson DC/DC Power Adapter delivers reliable, regulated power from a 12–32 VDC source—perfect for in-vehicle, field, or mobile office setups. Designed to meet the exact voltage and current requirements of your Toughbook, this adapter ensures uninterrupted performance and battery charging in demanding conditions.

Ideal For: Public safety, field service, construction, utilities, transportation, and any mobile workforce that depends on their Panasonic Toughbook to get the job done.

### FEATURES & BENEFITS

- 12-32 VDC
- Cig. Plug 36" Input Cable
- 5.5×2.5 36" Output Cable
- Low Input Voltage Disconnect
- High Input Voltage Disconnect
- Output Short Circuit Protection
- Output Overcurrent Protection
- Internal Over Temperature Protection
- Mission-Ready Reliability – Powers your Toughbook and charges its internal battery without interruption.
- Versatile Input Range – Operates from 12–32 VDC, ideal for fleet vehicles, heavy equipment, and field service trucks.
- Rugged & Durable – Engineered to withstand vibration, temperature extremes, and harsh working conditions.
- Optimized Performance – Supplies consistent, clean power to protect sensitive electronics and maximize battery life.

| WEIGHT            | HEIGHT           | WIDTH          | DEPTH             |
|-------------------|------------------|----------------|-------------------|
| 1.4 lbs / 0.64 kg | 1.1 in / 2.79 cm | 3 in / 7.62 cm | 5.5 in / 13.97 cm |

### TECHNICAL INFORMATION

- **Input Voltage:** 12-32 VDC
- **Output Voltage:** 15 VDC
- **Output Current:** 8 amps
- **Input 1 Connector 1:** SMK Cig
- **Input 1 Connector 2:** MP205
- **Output 1 Connector 1:** 2.1mm
- **Output 1 Connector 2:** Output 1 Connector 2:
- **Input 1 Length:** 36 Inches
- **Output 1 Length:** 36 Inches
