GETAC B360 LAPTOP DOCKING STATION

Engineered for the demanding work environments in utility, public safety, and material handling.

Gamber-Johnson's B360 laptop docking station is designed for the Getac B360 rugged computer and the Getac B360 Pro with the high capacity battery and factory installed expansion capability. The B360 docking station features a convenient front-facing docking release latch making it simple to dock/release the computer without reaching.

The front-facing USB-A and USB-C ports are convenient when you need temporary port access but utilize the rear-facing full port replication to more permanently connect the peripherals you use on a daily basis. This docking station provides fast-charging USB ports for situations where time is critical and a keyed lock to protect your investment when you are away from the vehicle. Combine Gamber-Johnson's mounting equipment with the B360 docking station to create an ergonomic vehicle office for any application.
