

# MOLLE PATTERN ACCESSORY MOUNT

Built on the Modular Lightweight Load-carrying Equipment (MOLLE) standard, this mount features the same military-style webbing grid used by tactical teams worldwide. The precision-cut slots let you securely attach pouches, holsters, tool holders, and other gear—keeping everything exactly where you need it. Because it's a universal standard, you can swap or reconfigure accessories anytime without special adapters to suit your daily needs.

## PRODUCT SPECS
