1. Use the four provided 3/8th bolts and washers to attached item 2 & 3 to 1 as shown below.
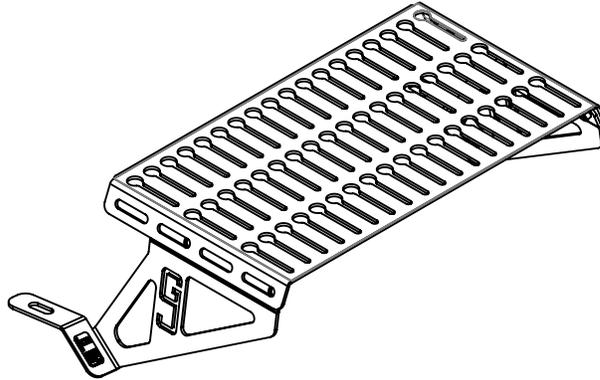

2. Loosen back seat bolts and remove the front seat bolts from both the driver and passenger seats.

3. Slip slotted tabs on driver and passenger side brackets between the inner seat rails and floor and making sure to align each slot with the seat bolt holes.

4. Reinstall front seat bolts and torque all seat bolts following the FSM (factory service manual). (Finished assembly should resemble below)
