

INSTALLATION INSTRUCTIONS

Product

Leg Kit - Universal Flat Floor MCS
MCS-UNIV

Revision

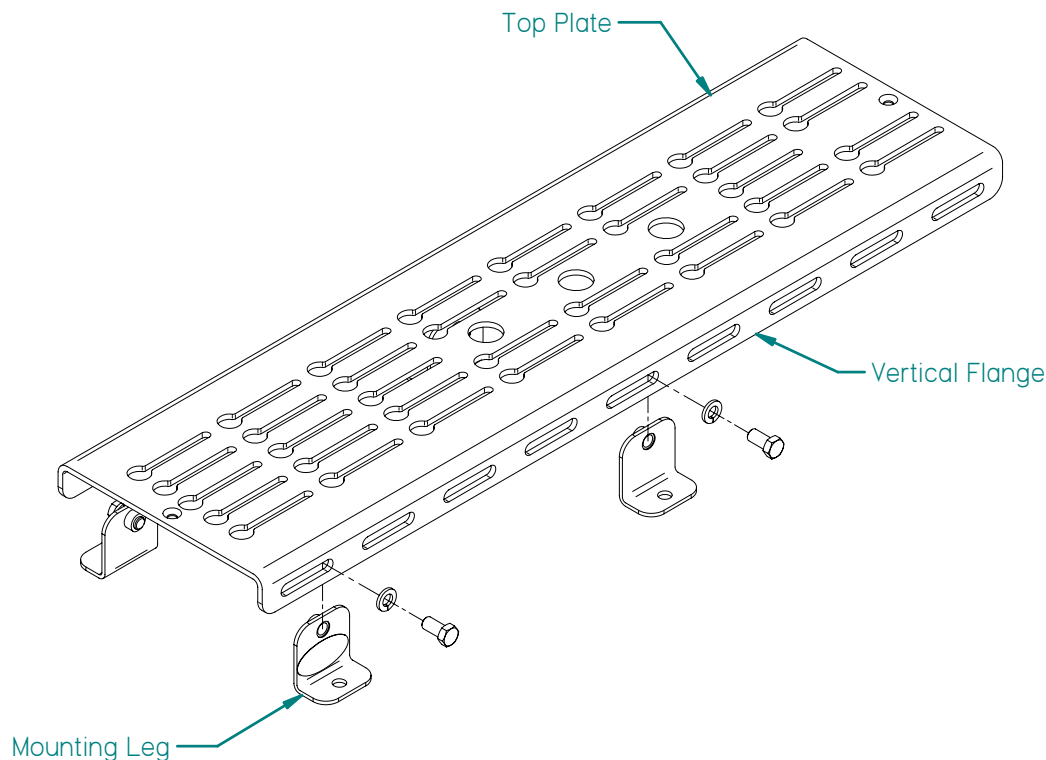

Rev B

Form

INST91

The universal flat floor leg kit can be used with 9", 14", and 18" console boxes mounted on either the short or long top plate.

1. Place the top plate in the desired position on the floor of the vehicle. It may be necessary to temporarily mount the console box, pole, or other options to determine the best location for the top plate.
2. Install the leg kit to any of the mounting holes on the vertical flanges of the top plate using hardware provided. (Note: wide spacing of legs provides greater stability.) Adjust location of legs to suit equipment mounted below the vehicle floor. Mark the mounting hole location, and note whether it will be necessary to shim any leg with washers to compensate for floor irregularities.
3. Drill 17/32" (.53") holes in the floor at each mounting location, using care not to damage any equipment that may be under the floor.
4. Place the bolts in holes, and nuts and washers, and tighten, (hardware not provided by Gamber-Johnson LLC). If the floor is less than 1/4" thick, we recommend using fender washers on the bottom side. Do not use lag screws or sheet metal screws as they can pull out of the floor.

Product Mounting Disclaimer

Gamber-Johnson is not liable under any theory of contract or tort law for any loss, damage, personal injury, special, incidental or consequential damages for personal injury or other damage of any nature arising directly or indirectly as a result of the improper installation or use of its products in vehicle or any other application. In order to safely install and use Gamber-Johnson products full consideration of vehicle occupants, vehicle systems (i.e., the location of fuel lines, brakes lines, electrical, drive train or other systems), air-bags and other safety equipment is required. Gamber-Johnson specifically disclaims any responsibility for the improper use or installation of its products not consistent with the original vehicle manufactures specifications and recommendations, Gamber-Johnson product instruction sheets, or workmanship standards as endorsed through the Gamber-Johnson Certified Installer Program.
