

GETAC F120 TABLET DOCKING STATION

Certified Rugged. Connected Without Compromise.

Designed for demanding environments like public safety vehicles, warehouses, and material handling operations, the Getac F120 Tablet Docking Station delivers rugged dependability and mission-ready performance. Certified and MIL-STD 810H tested for vibration, shock, and thermal extremes, it ensures your technology stands up to the toughest conditions.

With full and lite port replication options, you can tailor connectivity to your workflow and budget, while the optional QUAD RF pass-through keeps communication uninterrupted in the field. A floating pogo pin connector ensures reliable docking, a built-in stylus holder keeps essentials secure, and one-hand release makes operation fast and efficient.

Purpose-built for the Getac F120 tablet, this dock is the ultimate solution for rugged reliability and seamless connectivity.

WEIGHT	HEIGHT	WIDTH	DEPTH
2.3 lbs / 1.04 kg	12.5 in / 31.75 cm	2.88 in / 7.32 cm	10.45 in / 26.54 cm

CERTIFICATES & TESTING

- Getac Certified
- Vibration Tested: MIL-STD 810H Operational/Non-Operational
- Cycle Test: Latch, Lock, and Docking Connector - 30,000 Cycles
- Environmental: Thermal Shock; High/Low Temperature Operational & Storage
- FCC, RoHS Certified
- E-Mark
- SAE Standard J1455 Crash Test

ACCESSORIES

- Getac 120W Power Adapter w/ Bare Wire Lead (7300-0516)
- Getac 120W Power Adapter w/ Cig Plug (7300-0471)

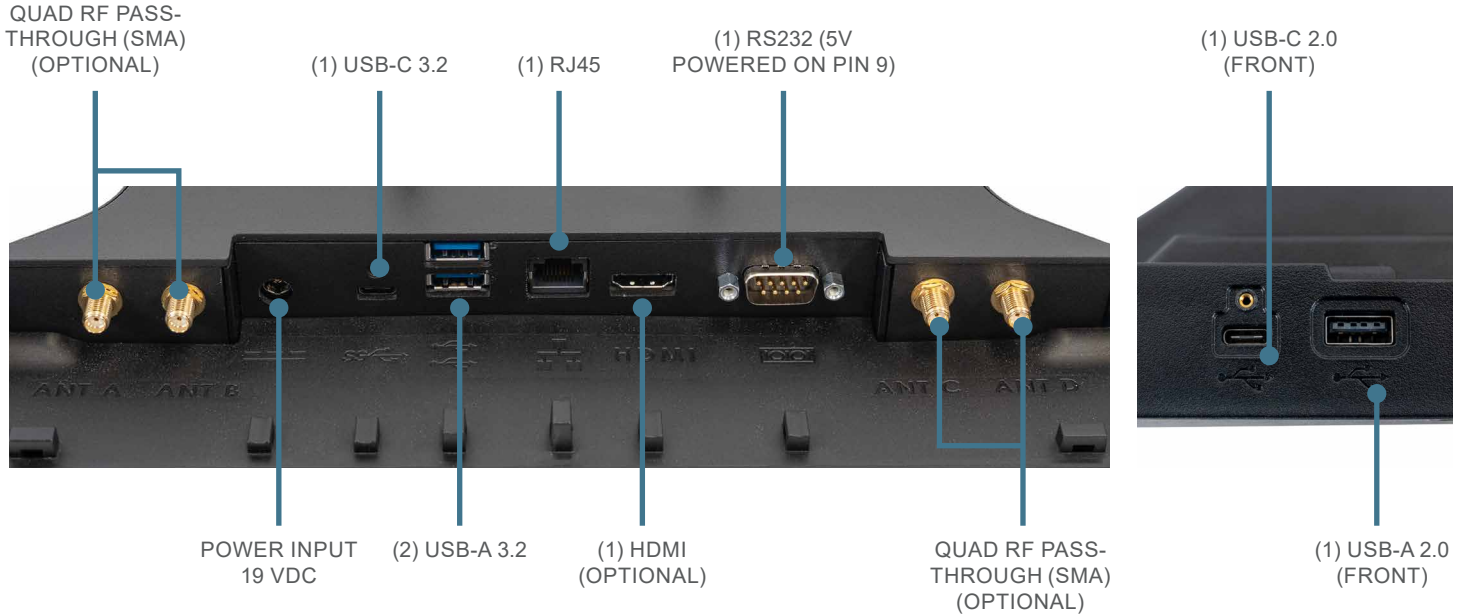

FEATURES

- Compatible with the Getac F120 tablet
- Getac certified electronics
- One-hand docking and release for efficient use
- Accommodates the tablet's hard handle, high-capacity battery, smart card reader and slim hand strap accessories
- Allows access to all tablet control buttons while the tablet is docked
- Downward facing rear ports with integrated cable management
- Floating docking connector ensures reliable pogo pin connection in rugged environments
- Built-in stylus holder
- Keyed lock for security
- Full and lite port replication options to align setup to peripheral and budget requirements
- Optional QUAD RF Pass-through
- VESA 75 mounting pattern
- 3-Year Limited Warranty
- Power Input: 19V
- Operating Environment: -20°C-50°C (-4°F-122°F)
- Storage Environment: -40°C-85°C (-40°F-185°F)
