Safety is dependent on the proper installation and servicing of this cradle. It is important to read and follow all instructions before installing this product.

To properly install a Gamber-Johnson cradle you must have a good understanding of automotive electrical procedures and systems, along with proficiency in the installation and service of aftermarket vehicle equipment.

There are no adjustments required at any time of the components within the cradle. **Opening the cradle will void the product warranty.**

During Installation:

- Do not use this cradle until:
 - Mounting of all components is complete

After Installation:

- Test the cradle to ensure that it is working properly.

General Safety Notes:

- Do not install equipment or route wires or cords in the deployment path of any air bag.
- When drilling into the vehicle, DO make sure that both sides of the surface are clear of anything that could be damaged.

CAUTION

If wiring is shorted to the frame, high current conductors can cause hazardous sparks resulting in electrical fires or flying molten metal.

WARNING

Failure to follow all safety precautions and instructions may result in property damage, serious injury, or death.

File these instructions in a safe place and refer to them when performing maintenance or reinstalling.

Figure 1

1. A mount with a VESA 75 pattern is required to mount the cradle using the 1/4"-20 mounting studs on the rear of the dock. (Figure 1)
2. Attach the cradle to the selected mount using the 1/4"-20" hardware from the 7120-0430 hardware bag.

Operation: Docking

1. Insert the bottom of the tablet into the cradle. (Figure 1)
2. Rotate the top of the tablet under the top latch until the tablet is resting inside the main housing. The latch will spring down in front of the tablet to hold it in place. (Figure 2)
3. (Optional) Turn the lock 90 degrees CCW to lock the tablet in cradle. (Figure 3)
