

DASH CAMERA MOUNTS FOR LYTX

Reliable, Rugged, and Ready for Action

Enhance your LYTX dash camera setup with Gamber-Johnson's innovative headliner and suction cup mounting solutions. Our mounts are designed for seamless integration, providing a rugged and reliable installation that eliminates the need for drilling.

With five vehicle-specific options, Gamber-Johnson ensures a secure and polished camera setup in your vehicle, ideal for professionals who prioritize reliability and a streamlined appearance.

RUGGED. RELIABLE. RESPONSIVE.

IMPROVE VISIBILITY: Dash Cam Mounting Where It's Important

with Gamber-Johnson's LYTX Camera Mounting Solutions

Upgrade your LYTX dash camera with Gamber-Johnson's headliner or suction cup mounting solutions for a secure, professional, and streamlined installation. Contact us to find the perfect mount for your vehicle.

KEY BENEFITS:

- **PERMANENT/SEMI-PERMEANENT STABILITY:** Peace of mind knowing your camera remains securely in place, even after windshield replacements.
- **EFFORTLESS INSTALLATION:** Install quickly and securely using existing headliner points, without compromising your vehicle's integrity.
- **NO MORE REMOUNTING HASSLES:** Avoid the inconvenience of repositioning your camera after a windshield change.
- **UNIVERSAL OPTIONS:** Our suction cup versions allow for quick, tool-less installation from vehicle to vehicle.
- **ENHANCED VISIBILITY:** Achieve a cleaner, unobstructed view by replacing bulky adhesive mounts with our sleek, headliner or suction cup solution.
- **PERFECT FIT:** Designed specifically for the Lytx cameras ER-SF300/400, Surfsight AI-12 and Surfsight AI-14, ensuring precise alignment and flawless operation.
- **CUSTOMIZABLE ANGLE:** Benefit from 20-degree left/right adjustability and vertical flexibility for optimal camera positioning.
