

PRODUCT GUIDE

Getac V120 Laptop Docking Cradle

PRODUCT NUMBER(S)

7160-2092 SERIES

For more language options and/or questions, please contact a Gamber-Johnson representative at **+1 800.756.9198**

Since 1954, we have been dedicated to providing **RUGGED**, **RELIABLE**, and **RESPONSIVE** solutions that empower professionals in the field.

Thank you for choosing Gamber-Johnson.

Welcome to your new **Gamber-Johnson Docking Cradle**—engineered for **mission-critical reliability** in the toughest environments. At Gamber-Johnson, we understand that your technology is more than a tool; it's a lifeline. That's why our rugged mounting solutions and docking stations are designed to integrate seamlessly with your equipment, ensuring **secure connections** and **reliable performance** wherever your job takes you.

This guide will walk you through the safe and effective installation of your docking cradle.

Inside, you'll find:

- Inventory list of what's included
- Step-by-step installation instructions
- Images for easy reference
- Essential safety information to ensure proper setup and operation

Our commitment to **quality**, **durability**, and **rugged reliability** is built into every product we make.

Important: Before you begin, please carefully review all safety instructions provided in this guide. For vehicle applications, we recommend professional installation by qualified technicians with experience in automotive electrical systems and aftermarket vehicle equipment installation.

For additional product information, installation tips, or support, please contact your Gamber-Johnson representative at **+1 800.756.9198** or visit **www.gamberjohnson.com**.

11	Quad RF Pass-Through SMA; Default RF Configuration: Ant A-GPS, ANT B-WLAN or WWAN Aux, ANT C-WWAN Main, ANT D-WWAN MIMO (Optional, -04 Sku only)

Safety is dependent on the proper installation and servicing of this docking cradle. It is important to read and follow all instructions before installing this product.

To properly install a Gamber-Johnson Docking Cradle you must have a good understanding of automotive electrical procedures and systems, along with proficiency in the installation and service of aftermarket vehicle equipment.

There are no adjustments required at any time of the components within the docking cradle. **Opening the docking cradle will void the product warranty.**

During Installation:

- Do not use this docking cradle until:
 - Mounting of all components is complete

After Installation:

- Test the docking cradle to ensure that it is working properly.

General Safety Notes:

- Do not install equipment or route wires or cords in the deployment path of any air bag.
- When drilling into the vehicle, DO make sure that both sides of the surface are clear of anything that could be damaged.

CAUTION

If wiring is shorted to the frame, high current conductors can cause hazardous sparks resulting in electrical fires or flying molten metal.

WARNING

Failure to follow all safety precautions and instructions may result in property damage, serious injury, or death.

File these instructions in a safe place and refer to them when performing maintenance or reinstalling.

1. A mount with a VESA 75 pattern is required to mount the docking cradle using the ¼"-20 inserts on the bottom of the docking cradle.
2. Attach the docking cradle to the selected mount using the ¼"-20" hardware from the 7120-0413 Hardware Bag.

Operation: Docking

1. Insert laptop into front hooks as shown. (Figure 1 and Figure 2)
2. Lower rear of laptop onto connector then press rear of laptop into the docking cradle until latched. (Figure 3)

Figure 1

Figure 2

Figure 3

3. The release handle should read DOCKED. (Figure 4 and Figure 5)
4. (Optional) Turn lock 90 degrees to the lock position (CCW) to secure the laptop in docking cradle. (Figure 6)

Figure 4

Figure 5

Figure 6

Operation: Un-Docking

1. Unlock the docking cradle if previously locked. Turn lock 90 degrees to the unlocked position. (CW).
2. Push inward on the latch release handle until the rear hooks disengage from the laptop. (Figure 1)
3. Lift the rear of the laptop up from the docking cradle and then out from the front hooks. (Figure 2)

Figure 1

Figure 2

A screen support is recommended on all laptop docking stations/cradles in high-vibration environments.

An optional 2ND screen support can be purchased from www.GamberJohnson.com

Attach the screen support using the hardware provided with it.
