FREIGHTLINER M2 DASH MOUNT

Designed for your mobile work environment. A rugged and reliable solution for your device.

The M2 Semi-Truck Mount is designed to attach to the dash of the truck with no additional drilling. It attaches close to the dash enabling an opportunity to mount a tablet, phone or other supporting telematics/ELD device.

PRODUCT MEASUREMENTS

ITEM NO.	WEIGHT	HEIGHT	WIDTH	DEPTH
7160-1301	1.15lb / .522kg	2.34 in / 5.94 cm	5.03 in / 12.78 cm	9.02 in / 22.91 cm

FEATURES & BENEFITS

- This semi-truck mount is a make and model specific solution and intended to eliminate the need for drilling additional holes into the dash.
- The M2 Dash Mount design creates the opportunity for mounting more than one small device from the same mount. i.e. small tablet and phone. As the slotted platforms length in to support product with the AMPS hole dimension.
- This semi-truck mount in coordination with a Zirkona for big rig mount will allow for articulation and best fits the drivers comfort in viewing and access to the device.
- The mount was carefully designed to allow for access to the other switches and dials on the dash.
