SAMSUNG TAB ACTIVE4 / TAB ACTIVE4 & 5 PRO SLIM ATTACHABLE KEYBOARD

Designed for seamless integration with the Tab Active4 Pro and Tab Active5 Pro, the Slim Attachable Keyboard offers compatibility with the Samsung rubber boot and mobility bundle. This keyboard features a touchpad, a 76-key layout with 12 function keys, and tactile mechanical-style keys for enhanced navigation and typing. The POGO docking connector ensures a stable connection, while the built-in kickstand provides optimal viewing comfort. With a sleek, low-profile design, this keyboard is perfect for mobile productivity.

FEATURES & BENEFITS

- Seamlessly integrates with the Tab Active4 and Tab Active5 Pro with its rubber boot and mobility bundle, ensuring robust protection and versatility.
- Features a centrally located touchpad for enhanced navigation and control to streamline your workflow without the need for an external mouse.
- Equipped with a full 76-key layout and 12 function keys, allowing you to tailor the keyboard to your specific needs and improve efficiency.
- Offers tactile, mechanical-style keys that provide a satisfying typing experience with improved accuracy and speed.
- Securely connects the tablet to the keyboard through a POGO docking connector, ensuring a stable and reliable link for uninterrupted productivity.
- Includes a built-in kickstand that positions the tablet at an optimal viewing angle, enhancing comfort and reducing strain during prolonged use.
- No additional ports on the keyboard, maintaining a sleek and streamlined appearance while reducing potential points of failure.
- Comes with a power adapter to charge the tablet, ensuring you stay powered throughout the day.*
- Boasts a low-profile, ergonomic design that promotes comfort during extended use, making it ideal for mobile environments.
- Features rubber feet that provide stability and prevent slipping, even on smooth surfaces, for a secure typing experience.
- Allows you to charge the device through the tablet's USB-C port, providing a modern and convenient charging solution.*

*Utilize included power adapter to charge the tablet to meet power requirements
