DELL 7230 TABLET DOCKING STATION

Revision

Rev C

Form

INST-1113

Printing Spec: PS-001

This instruction sheet is for the Dell 7230 Tablet Docking Station. For instructions on features, set-up, and operation of the Dell 7230 computer, please refer to the manual provided by Dell with the computer.

This Docking Station is designed to be used with a variety of Gamber-Johnson mounting systems. Installation instructions for other Gamber-Johnson products are provided with each individual product.

This instruction sheet is for the following products:

Item No. 7160-1772-00 Non-RF **Item No. 7160-1772-10** HDMI & Non-RF
Item No. 7160-1772-04 Quad-RF **Item No. 7160-1772-14** HDMI & Quad-RF

A Dell certified power adapter must be used to power the docking station, the power adapters are sold separately unless ordered through a KIT.

(See Page 4 For Power Adapter Options)

**Product Mounting Disclaimer**

Gamber-Johnson is not liable under any theory of contract or tort law for any loss, damage, personal injury, special, incidental or consequential damages for personal injury or other damage of any nature arising directly or indirectly as a result of the improper installation or use of its products in vehicle or any other application. In order to safely install and use Gamber-Johnson products full consideration of vehicle occupants, vehicle systems (i.e., the location of fuel lines, brake lines, electrical, drive train or other systems), air-bags and other safety equipment is required. Gamber-Johnson specifically disclaims any responsibility for the improper use or installation of its products not consistent with original vehicle manufactures specifications and recommendations, Gamber-Johnson product instruction sheets, or workmanship standards as endorsed through the Gamber-Johnson Certified Installer Program.

PRE-INSTALLATION RECOMMENDATIONS

Conduct a "Bench Test"

Gamber-Johnson strongly advises a "bench test" be conducted to verify all electronic and software issues are resolved prior to installation:

1. Make sure the computer is operational by itself.
2. Insert computer into the docking station and verify that the computer is operating in the dock.
3. Interconnect entire assembly and verify start-up of all components, including other equipment (printers, modems, scanners, etc.)

Gamber-Johnson recommends positioning of all mounts and equipment in the vehicle prior to the actual install to verify that mounting locations are safe and practical.

IMPORTANT SAFETY INFORMATION FOR INSTALLERS

Safety is dependent on the proper installation and servicing of this docking station. It is important to read and follow all instructions before installing this product.

To properly install a Gamber-Johnson docking station you must have a good understanding of automotive electrical procedures and systems, along with proficiency in the installation and service of aftermarket vehicle equipment.

There are no adjustments required at any time of the electrical components within the docking station. **Opening the docking station will void the product warranty.**

During Installation:

DO NOT connect this docking station to the vehicle battery until:

1. All other electrical connections are made
2. Mounting of all components is complete
3. Verification that no shorts exist in the entire system

DO NOT install equipment or route wiring or cords in the deployment path of any air bag.

When drilling into the vehicle, DO make sure that both sides of the surface are clear of anything that could be damaged.

CAUTION: *If wiring is shorted to the frame, high current conductors can cause hazardous sparks resulting in electrical fires or flying molten metal.*

After installation:

Test the docking station to ensure that it is working properly.

File these instructions in a safe place and refer to them when performing maintenance or re-installing.

WARNING: *Failure to follow all safety precautions and instructions may result in property damage, serious injury, or death.*

DELL 7230 TABLET DOCKING STATION FEATURE IDENTIFICATION

POWER ADAPTERS

Power Adapters can be purchased directly from Gamber Johnson or as a KIT where they are included with the docking station:

7300-0714 - Auto 11-16v Input, 120W Output, Bare Wire KIT = 7170-1118-XX

7300-0713 - Auto 11-16v Input, 120W Output, Socket Plug

7300-0752 - A/C 100-240v Input, 130W output

7300-0305 - Isolated 12-32v Input

7300-0306 - Isolated 20-60v Input

7300-0622 - Isolated 72-110v Input

CABLE ROUTING

Use supplied cable ties to secure all peripherals to docking station

RF IDENTIFICATION

Note: RFs are NOT configurable

DOCKING AND UNDOCKING THE TABLET

TO DOCK THE COMPUTER

1. Insert the bottom of the tablet into the docking station.
2. Rotate the top of the tablet under the top latch until the tablet is resting inside the main housing. The latch will spring down in front of the tablet to hold it in place. (See figures 1 & 2)
3. (Optional) Turn lock 90 degrees clockwise to lock tablet in dock.

Figure 1

Figure 2

Figure 3

TO UNDOCK THE COMPUTER

1. Unlock the dock if locked (turn lock 90 degrees counter-clockwise)
2. Push inward on the thumb knob and pull outward on the top of the tablet until it clears the top latch. Make sure handle clears the lock housing. (See Figures 3 & 4)
3. Lift the Tablet up and out of the docking station

Figure 4

HDMI DRIVER DOWNLOAD INFORMATION

7160-1772-10 & 7160-1772-14 SKU ONLY

1. Dock the tablet and verify power. The HDMI Driver (D: Drive) may pop up automatically. If the D: Drive folder does not pop up automatically navigate to the "Devices and Drives" under File Explorer and open the D: Drive.

NOTE: If you do not see the D: Drive folder with HDMI Adapter information when the tablet is docked, go to www.gamberjohnson.com and find the "HDMI Adapter Drivers" .ZIP file on product pages:
7160-1772-10
7160-1772-14

2. Click and install the "USMDisplay_Windows_V2.0.1.7.5" Application.

	LOST.DIR	12/13/2021 5:51 PM	File folder	
	manual	7/25/2022 9:51 AM	Microsoft Edge PDF ...	74 KB
	MSDisplay_Android_V2.0.1.3.apk	7/25/2022 9:51 AM	APK File	2,817 KB
	USMDisplay_Windows_V2.0.1.7.5	7/25/2022 9:51 AM	Application	3,332 KB
	说明	7/25/2022 9:51 AM	Microsoft Edge PDF ...	144 KB

3. Once the install is complete the tablet will need to restart to apply the Display Driver Update and enable the HDMI Port. Verify the HDMI port is functional.
