

PRODUCT GUIDE

Landscape To Portrait Mount

PRODUCT NUMBER(S)

7160-2230 Series

7160-2230-00

7160-2230-01

7160-2230-02

7160-2230-03

For more language options and/or questions, please contact a Gamber-Johnson representative at **+1 800.756.9198**

Since 1954, we have been dedicated to providing **RUGGED**, **RELIABLE**, and **RESPONSIVE** solutions that empower professionals in the field.

Thank you for choosing Gamber-Johnson.

Welcome to your new **Gamber-Johnson Motion Attachment**—engineered for **mission-critical reliability** in the toughest environments. At Gamber-Johnson, we understand that your technology is more than a tool; it's a lifeline. That's why our rugged mounting solutions and docking stations are designed to integrate seamlessly with your equipment, ensuring **secure connections** and **reliable performance** wherever your job takes you.

This guide will walk you through the safe and effective installation of your **Motion Attachment**.

Inside, you'll find:

- Inventory list of what's included
- Step-by-step installation instructions
- Images for easy reference
- Essential safety information to ensure proper setup and operation

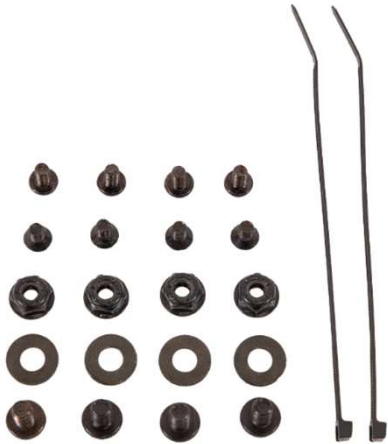

Our commitment to **quality**, **durability**, and **rugged reliability** is built into every product we make.

Important: Before you begin, please carefully review all safety instructions provided in this guide. For vehicle applications, we recommend professional installation by qualified technicians with experience in automotive electrical systems and aftermarket vehicle equipment installation.

For additional product information, installation tips, or support, please contact your Gamber-Johnson representative at **+1 800.756.9198** or visit **www.gamberjohnson.com**.

WARNING

You must read and follow all of these installation instructions. Failure to follow the installation instructions may result in serious bodily injury or death

DO NOT install or use this assembly in the area in which the airbag on the vehicle may be deployed. The installer and user of this assembly are responsible for installing and using this assembly outside the area in which an airbag may be deployed. (See Product Mounting Disclaimer Below)

If the installation of the equipment requires that the equipment (or any additional equipment that is added to the installation) be placed in front of an airbag, the airbag should be deactivated. In order to secure permission for deactivating the airbag you must contact the National Highway Traffic Safety Administration at 1-800-424-9393 to gain permission to do so. If you have any questions or need assistance, call Gamber-Johnson at **+1 800-756-9198**.

High speed vehicle turns may cause parts of the assembly to swivel, interfering with the driver or other equipment.

Keep these installation instructions with the product and readily available in the vehicle for future reference of other users of the product.

Additional copies of the installation instruction can be obtained from Gamber-Johnson. If you need assistance or have any questions, go to www.gamberjohnson.com or call Gamber-Johnson at **+1 800-756-9198**.

DO NOT remove any warning labels from the product under any circumstances.

7160-2230-00

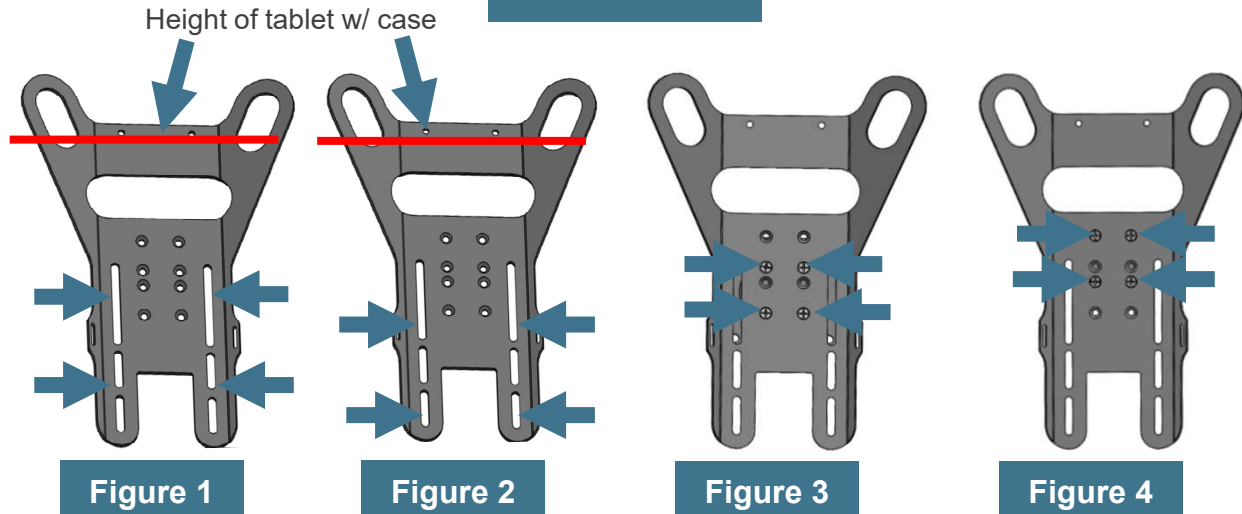

1. The 7160-2230-00 Landscape to Portrait Mount incorporates an AMPS mounting pattern on each side with 10-32 threaded holes.

7160-2230-01

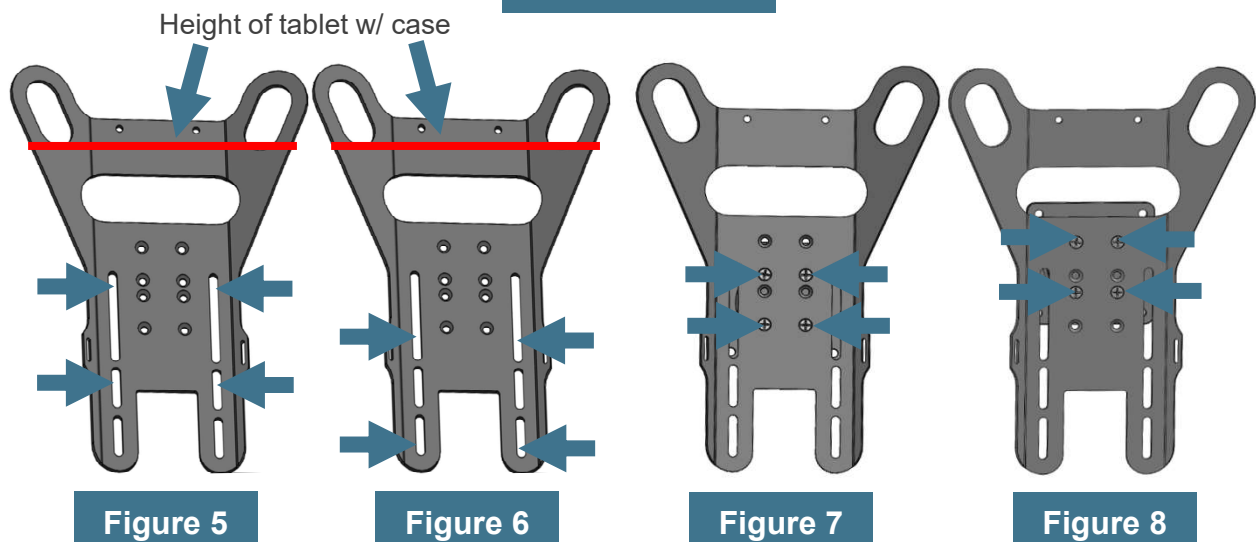

1. The 7160-2230-01 Landscape to Portrait Mount incorporates an AMPS mounting pattern with 10-32 threaded holes on one side and a VESA 75mm through hole mounting pattern on the other requiring the use of 1/4" hardware.

7160-2230-02

1. Determine which VESA mounting pattern to use to get the Rotational Assist Plate to be just above the tablet with case to assist in overcoming the indents of the Landscape to Portrait Mount. (Figures 1 and 2)
2. The 7160-2230-02 Landscape to Portrait Mount (L to P Mount) incorporates an AMPS mounting pattern on each side with #10-32 threaded holes. The 22283 Rotational Assist Plate attaches to the side of the L to P Mount with the brass inserts using the #10-32 X 0.375" flat head screws from hardware bag 7120-1284. Use the AMPS mounting pattern on the 22283 Rotational Assist Plate that gets the rotation as close to the center of the tablet as possible. (Figures 3 and 4)

7160-2230-03

1. Determine which VESA mounting pattern to use to get the Rotational Assist Plate to be just above the tablet with case to assist in overcoming the indents of the Landscape to Portrait Mount. (Figures 5 and 6)
2. The 7160-2230-03 Landscape to Portrait Mount incorporates an AMPS mounting pattern with #10-32 threaded brass inserts on one side and a VESA 75mm through hole mounting pattern on the other requiring the use of 1/4" hardware.
3. The 22283 Rotational Assist Plate attaches to the L to P Mount AMPS pattern using the #10-32 X 0.375" flat head screws from hardware bag 7120-1284. Use the AMPS mounting pattern on the 22283 Rotational Assist Plate that gets the rotation as close to the center of the tablet as possible. (Figures 7 and 8)

The mounting scenarios shown below are generalized and are for reference due to the multiple possible mounting configurations the Landscape to Portrait Mount and the Rotational Assist Bracket could be used in. If you have any questions or need assistance, call Gamber-Johnson at **+1 800-756-9198**.

Figure 1

Figure 2

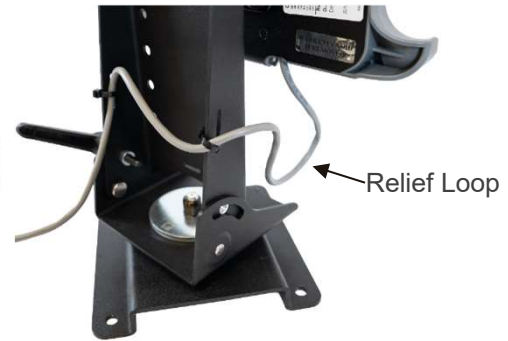

Figure 3

1. Mount the docking station to the VESA 75 side of the Landscape To Portrait Mount using the hardware that came with the docking station. (Figure 1)
2. Mount the AMPS side of the Landscape To Portrait Mount to a clevis using the appropriate #10-32 screws from the 7120-1284 hardware bag. Use the pan head screws if the clevis has through holes or the flat head screws if the clevis has countersunk holes. (Figure 2)
3. Determine the direction of rotation desired, clockwise or counterclockwise, that works best for the mounting configuration and secure all cables using the cable ties from hardware bag 7120-1284 leaving a stress relief loop to allow the device to rotate without causing stress to the connectors or cables in all directions of rotation. (Figure3)

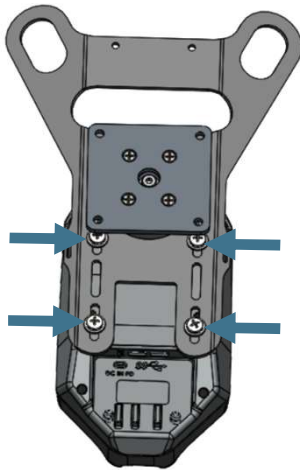

Figure 5

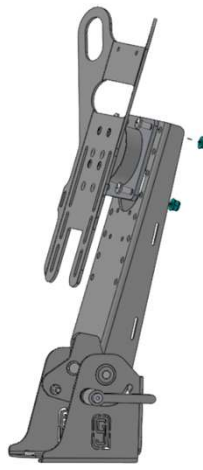

Figure 6

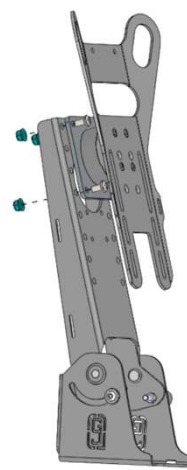

Figure 7

Figure 8

1. Mount the dock to the Rotational Assist Bracket in the chosen VESA pattern using the hardware that came with the dock. (Figure 5)
2. Mount the VESA side of the Landscape to Portrait Mount to the clevis using the 1/4"-20 x 1/2" button head screws and flange nuts from the hardware bag (7120-1284). (Figures 6 and 7)
3. Determine the direction of rotation that works best for the configuration and secure the cables with the cable ties from the hardware bag (7120-1284) providing a strain relief loop to ensure there is no stress placed on the cables or connections while rotating the mount. (Figure 8)

The mounting scenarios shown below are generalized and are for reference due to the multiple possible mounting configurations the Landscape to Portrait Mount and the Rotational Assist Bracket could be used in. If you have any questions or need assistance, call Gamber-Johnson at **+1 800-756-9198**.

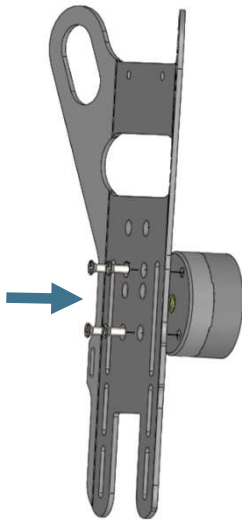

Figure 1

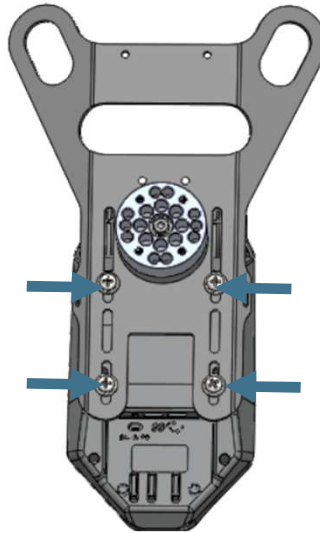

Figure 2

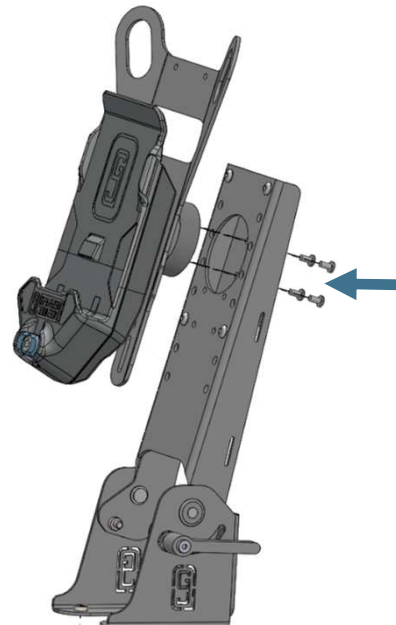

Figure 3

Figure 4

Figure 5

Figure 6

1. Mount the Rotational Assist Bracket to the Landscape to Portrait Mount's AMPS pattern with the brass inserts using the #10-32 X 0.375" flat head Phillips screws from the hardware bag (7120-1284). (Figure 1)
2. Mount the dock to the Rotational Assist Bracket using the hardware that came with the dock. (Figure 2)
3. Mount the Landscape to Portrait Mount with the Rotational Assist Bracket attached to the recessed plate of the Fold Flat Display Mount using the #10-32 X 0.375" pan head Phillips screws from the hardware bag (7120-1284). (Figures 3)
4. Determine the direction of rotation that works best for the configuration and secure the cables with the cable ties from the hardware bag (7120-1284) providing a strain relief loop to ensure there is no stress placed on the cables or connections while rotating the mount. (Figures 4-6)
