a TEAM GJ brand

ELECTRIC UTILITY CROSSBOX

Featuring an integrated L-Track Tie-Down Rail System and a notched design for HotStick storage.

This toolbox provides multiple secure attachment points for anchoring tools, equipment, coolers, and other cargo during transport.

From the cab to the truck bed, Gamber-Johnson and CamLocker deliver a complete mobile workspace that improves fleet readiness, enhances security, and keeps electrical utility crews productive in the field.

FEATURED CONFIGURATION:

Part Number: AA-CL-71-252-1-HST

Part Number Description: Standard-Profile, King-Size Heavy-Duty Box in a durable matte black finish. Features the new integrated Tie-Down Track System and a dedicated HotStick notch for convenient storage and access.

INDUSTRIES

ENTERPRISE & UTILITIES

FEATURES & BENEFITS

- **HotStick-Notched Interior:** Accommodates HotSticks up to 40 feet long, keeping them protected, organized, and easily accessible.
- **Enhanced Theft Prevention:** Stores the HotStick inside the secure toolbox, helping reduce exposure and deter theft.
- **Increased Truck-Bed Space:** Eliminates the need for an external PVC storage tube, freeing up valuable bed space for additional tools, equipment, and materials.
- **Integrated L-Track Tie-Down Rails:** Provides a versatile cargo-management system with multiple anchor points for securing equipment, tool bags, coolers, generators, PPE, and other essential gear.
- **Improved Cargo Security:** Helps prevent tools and equipment from shifting during transport, reducing the risk of damage and improving overall safety.
- **Better Organization and Efficiency:** Keeps essential equipment secured and organized so crews arrive prepared and ready to work.
